

SUMMARY: The Acting Director, Information Resources Group, invites comments on the proposed information collection request as required by the Paperwork Reduction Act of 1980.

DATES: An emergency review has been requested in accordance with the Act, since allowing for the normal review period would adversely affect the public interest. Approval by the Office of Management and Budget (OMB) has been requested by March 21, 1995.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Dan Chenok, Desk Officer: Department of Education, Office of Management and Budget, 726 Jackson Place NW., Room 3208, New Executive Office Building, Washington, D.C. 20503. Requests for copies of the proposed information collection request should be addressed to Patrick J. Sherrill, Department of Education, 7th & D Streets SW., Room 5624, Regional Office Building 3, Washington, D.C. 20202-4651.

FOR FURTHER INFORMATION CONTACT: Patrick J. Sherrill (202) 708-9915. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. Chapter 3517) requires that the Director of OMB provide interested Federal agencies and persons an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Director, Information Resources Group, publishes this notice with attached proposed information collection requests prior to submission to OMB. For each proposed information collection request, grouped by office this notice contains the following information: (1) Type of review requested, e.g., new, extension, existing, or reinstatement; (2) Title; (3) Frequency of collection; (4) The affected public; (5) Reporting and/or Recordkeeping burden; and (6) Abstract. Because an emergency review is requested, the additional information to be requested in this collection is included in the section on "Additional Information" in this notice.

Dated: March 15, 1995.

Western Area Power Administration

Parker-Davis Project—Proposed Firm Power Rate and Firm and Nonfirm Transmission Service Rates

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of proposed Parker-Davis Project power rate and firm and nonfirm transmission rate adjustments.

SUMMARY: The Western Area Power Administration (Western) is initiating rate adjustments for firm power and firm and nonfirm transmission service

for the Parker-Davis Project (P-DP). The power repayment study and other analyses indicate that the revenues required to pay all annual costs (including interest expense), plus repayment of required investment within the allowable time period has decreased by approximately \$4.7 million since the last rate adjustment. The proposed P-DP rates for firm power and firm and nonfirm transmission service are expected to become effective October 1, 1995, and will supersede the existing step two rates.

On January 6, 1994, the Deputy Secretary of the Department of Energy (DOE) approved the existing rates for firm power and firm and nonfirm transmission service on an interim basis. The existing rates for firm power and firm and nonfirm transmission service were placed in effect on February 1, 1994, and consisted of a two-step rate adjustment. Step one of the existing rates was effective February 1, 1994, through September 30, 1995, and step two of the existing rates was to be effective on October 1, 1995, through January 31, 1999. The Federal Energy Regulatory Commission (FERC) confirmed and approved the rates on October 14, 1994.

During this last P-DP rate adjustment process (WAPA-55), the Arizona Power Pooling Association, Inc.; Arizona Power Authority; and the Arizona Customer Group filed Motions To Intervene and Protest FERC's confirmation and approval of the P-DP rates described in Rate Order No. WAPA-55. On August 19, 1994, Western filed a Stipulation Agreement signed by Western and these customers in which the intervenors withdrew any protest and Western agreed to re-examine the issues raised as well as commence a new rate adjustment proceeding during fiscal year 1995.

Western has re-examined the issues raised during the last rate adjustment process and has developed proposed P-DP rates to supersede step two of the existing rates which were to become effective October 1, 1995, for firm power and firm and nonfirm transmission service. The major differences between step two of the existing rates and the proposed P-DP rates resulted from several activities which involved Western working in partnership with the P-DP customers. First, future revenue requirements were reduced by

controlling Western's operation and maintenance costs, and by decreasing the construction and replacement program through the Engineering Ten Year Planning Process. The Engineering Ten Year Planning Process includes a decision making partnership among P-DP customers and Western.

Second, Western revised the allocation of costs between the power and transmission customers which is described in a Costs Apportionment Study. A working group including customer representatives, Western, and the Bureau of Reclamation was formed to analyze the issues and concerns expressed by the customers during the last rate adjustment process on how costs were allocated between power and transmission. The working group derived a new methodology for allocating these costs in a manner deemed equitable. The new methodology also meets the concerns of both P-DP customers and Western.

Third, the working group developed a revised rate design methodology using the results from the Costs Apportionment Study. The results from the Costs Apportionment Study were applied to total revenue requirements instead of incremental revenue requirements as was done to derive step two of the existing rates.

When compared to step two of the existing rates, the activities stated resulted in a rate decrease for firm power customers and a rate increase for firm and nonfirm transmission customers.

The proposed P-DP rates provide for an energy rate of 1.91 mills per kilowatthour (mills/kWh) and a capacity rate of \$2.06 per kilowatt/month (kW/month) for a composite rate of 6.62 mills/kWh. The proposed P-DP rates for transmission service provide for a firm transmission service rate of \$13.28 per kilowatt/year (kW/year) and a nonfirm transmission service rate of 2.53 mills/kWh for P-DP and a firm transmission service rate for the Salt Lake City Area/Integrated Projects (SLCA/IP) of \$6.64/kW/season. The SLCA/IP transmission service is for the SLCA/IP customers' seasonal use of the P-DP transmission system.

Table One compares step two of the existing rates with the proposed P-DP rates.
